Page 17

Q. Okay. When Dr. Whitten prescribed the phentermine, do you know what indications he gave you for taking it? Any directions or instructions?

A. Just the regular instruction that was on the bottle. I think it's like -- it was either one time a day or two times a day. That's been a while. I can't remember.

Q. Do you remember if he discussed any side 8 9 effects?

A. I guess it would just be the -- I don't -- I don't -- I guess it's just the normal routine guestions. I don't think he said anything about side effects. He just told me that I needed to watch what I was eating and increase my exercise.

Q. And do you know how much you weighed at the 15 16 time?

A. I think I weighed -- it was in the 190. It was close to like 195 or 200, approximately.

Q. Was that your high weight -- your highest weight as an adult?

21 A. 200? Yes.

> Q. Okay. Do you remember anything about appearance of the phentermine that you took?

23

24

25 Q. Did it have a brand name or anything of that

Page 14

A. I think it's a general -- it's a combination of 2 general practice and for individuals who wants to lose weight also.

Q. Okay. Did he have a specialty for people who wanted to lose weight or was he a family practitioner who did weight loss?

A. He -- like I said, he was a general doctor, and if you -- he had a weight loss program at his office.

9 Q. Okay. And how did you come to see him? Did 10 somebody refer you to him? Did you see an advertisement? What led you to his door? 11

12 A. Someone referred me to him.

Q. And do you know who that was?

A. It was someone that I worked with years ago. I 14 15 don't remember who.

16 Q. Tell me -- when you first went to see him 17 around 1991, can you tell me what you remember about that office visit? 18

19 A. Just a normal office visit. He just weighed me 20 in and just told me what I had to do and -- and just 21 increase my exercise.

22 Q. And he gave you the prescription?

A. And he gave me the prescription and told me the

24 direction -- just to follow the direction on the

25 prescription.

Page 15

sort?

A. I can't remember. I think -- the only thing I can remember, I think the pills was blue and yellow. I don't remember anything else about it.

Q. Do you mean that one time the pills were blue and one time the pills were yellow, or do you mean that the blue -- pill itself had half blue and half yellow or

A. Yeah.

Q. -- combination like that?

A. It was combination of blue and yellow.

Q. Do you know what the dosage was?

13 A. I can't remember. Like I said before, I think

14 it was one or two a day. I can't remember. That's been 15 a while.

16 Q. Okay. And do you know if it was a generic or a 17 brand name?

A. It was generic.

19 Q. And can you tell me why you went to see Dr. 20 Whitten?

A. Because I was overweight.

21 22 Q. Since I don't live in Texas, I'm not familiar with his practice. Is his practice primarily for people 23 24 who are trying to lose weight or does he have a general 25 practice?

Q. Okay. And did he -- did he give you any 1 2 refills with that first prescription or did you have to 3 come back and see him? 4

A. You have to go back once a month because he weighs you in every month and takes your blood pressure and weigh you in, and he writes you a prescription for that month.

Q. Okay. So the prescriptions were given to you on a monthly basis?

A. Yes.

11 Q. And then at some point did you determine that 12 you had lost enough weight and you stopped going?

A. I think I stopped for a while. Yes, I did.

Q. Okay, because I've got a pharmacy record that shows that you had phentermine prescribed in 1998 but it doesn't show anything any earlier than that.

A. Okav.

18 Q. So do you think you first had it prescribed in 19 1998 or first had it prescribed in 1991?

20 A. No, it had to be 1998 because he was the only 21 doctor --

22 Q. Okay.

A. -- that I went to for diet pills.

24 Q. Okay. So you would not have had anything prior 25 to 1998.

- Q. Okay. How many days a week?
- 2 A. Probably about four days a week approximately.
  - Q. And when did you stop your exercise program?
- A. Oh, a while back. I don't remember but I 4
  - stopped a while back -- because the pills was giving me a
- 6 lot of energy. It just -- I was receiving a lot of
- 7 energy from the pills.
  - Q. So did you stop the exercise program around the same time that you stopped taking the pills?

- Q. And you mentioned that sometimes you try to 11 12 walk now? Is that right?
- A. I can't walk as far as I used to walk. Yes, 13 14 that's correct.
- 15 Q. When did you start going back out and trying to 16 walk?
- 17 A. Probably last year.
- Q. Okay. Was that simply a desire to start 18 19 exercising again and possibly lose weight again?
- 20 A. Yes. Well, what I try to do is get on the same format that I had before, walking in the mornings and 21 walking in the afternoons; but I just found that I didn't 22
- -- I couldn't do it anymore. 23
- 24 Q. Have you gone back to Dr. Whitten?
- 25 A. No, I haven't. No.

thing as fen-phen? Is that right? 1

> A. I just know all of it is -- is diet drugs. I don't know the difference between the fen-phens.

- Q. What have you heard about fen-phen?
- A. What have -- I've heard that it caused a lot of health problems. All diet drugs.
- Q. Okay. Now, let's distinguish -- I want to know first if you've heard something specifically about fen-phen, and then we'll talk about what you may have heard about any other diet drugs.
- A. No. No, I haven't. I haven't heard anything in particular about fen-phens.
- 13 Q. You've just heard generally that diet drugs are 14 not good for you.
  - A. Right.
- 16 Q. Okay. But as far as which diet drugs or 17 whether or not that's any and all diet drugs, you don't 18 know.
- 19 A. No, I don't know.
- 20 Q. All right. I am -- let's see. Look at your fact sheet. I want to ask you about some more things 21 22 there.
- 23 A. Uh-huh.
- 24 Q. Turn over to page 11. Are you there?
  - A. Yes, I am.

Page 47

- Q. Okay. Have you talked to any other doctor about taking any more diet drugs --
- A. Oh, no.
- 4 Q. -- since you stopped taking the phentermine?
- 5 A. I don't want to take anything else.
  - Q. Okay. And what is your thinking behind that?
- 7 A. My thinking?
- 8 Q. Yes, ma'am.
- 9 A. From not taking it?
- 10 Q. Yes, ma'am.
- 11 A. Oh, I just don't want to take it any more
- because I don't want anything else to happen to me. 12
- 13 Q. Have you ask any doctor about whether or not 14 these diet drugs, in fact, caused you any problems?
- 16 Q. And your basis for believing that is simply 17 that you've heard that there was a problem associated with fen-phen? 18
- 19 A. Yes.
- Q. And has anybody told you that -- that the 21 phentermine you took is the same thing as fen-phen?
- 22 A. I -- I don't know. No. I don't think so.
- 23 Q. Okay. And that's -- that's really getting to
- 24 -- to what I was wondering; and that is, you are just
- assuming that the phentermine that you took is the same

- Q. Looking down at the bottom of the page under letter J, it says, To the best of your knowledge, have you ever been told by a doctor or any other person that you have, may have or had any of the following. And then you've checked number 3, heart attack.
  - A. Uh-huh.
- Q. Who -- have you been told that you had a heart attack?
- A. When I went to the emergency room, they put me on a Code Red and told me I was having a heart attack; and that's when they rushed me in the back and hooked me up to EKG, and I was there pretty much all night.
  - Q. How long were you in the hospital?
- 14 A. Oh, I don't remember. I just know I was there 15 for a couple of hours.
  - Q. Okay. I mean, they let you go the next day.
  - A. Yes.
- 18 Q. Okay. And I understand your testimony that 19 when they -- when you first got there, they thought you 20 might be having a heart attack; but once they did the 21 EKG, did they tell you -- did any doctor tell you yes, 22 you did have, or no, you didn't have a heart attack?
- 23 A. They said something with my heart -- a valve or 24 something my heart. That's all I know. And that was it. 25 And they gave me some medicine.

Did you have to go back after you were got out of the hospital did you have to go back and be seen by a cardiologist or any other doctor for a period of time? A. No, no more than my regular doctor. Q. And your regular doctor, you're referring to who? A. At the time my doctor wasn't there. It was Dr. Gee. Q. Okay. Now, looking at your fact sheet I'm looking over page 14 A. Uh-huh. Q where under treatment for heart attack you indicated that you were seen by a doctor looks like Bogdan Chumak or Chumak Bogdan. A. That's the doctor at Metroplex Hospital. Q. Okay. It's Dr. Chumak. Is that right? A. Chumak? Q. Is Bogdan his first name? A. Bogdan. Yes. Q. And on the form here it looks like seen and you put down in 2000? A. Uh-huh.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Page 52  I can't remember how many but it was a few of them that they put all over me, and they ran a test on me, and they just kept asking me about my neck and my head.  Q. Okay. And did they put several things on your body with wires going back to a machine?  A. Yes, back to a machine. Then they had somebody to come in and give me an x-ray right in the same room, and they also had a chaplain to come down and pray over me, and they just told me that they felt that I I've had a heart attack.  Q. That was before the test.  A. That was during the test.  Q. Okay. Now, that test, that EKG, that was different from the echocardiogram you had in December of 2002 in Columbus. Right?  A. That's correct.  Q. I mean, it was a totally different test.  A. Yes, it was.  Q. All right. Looking at page 12 that you have been diagnosed with high cholesterol?  A. I cholesterol? Yes.  Q. Who diagnosed you with that?  A. Dr. Spencer.  Q. Okay. How long ago was that?
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Page 51 Q. Okay. Because I think earlier you had testified 2001? A. At the time I wasn't for sure on the dates. I told them it was a it had been a while, so I wasn't for sure on dates and year. Q. Okay. So which one is it? A. What's on the paper. Q. The paper says 2000. A. Then it's 2000. Q. Do you know what kind of doctor Dr. Chumak is? A. No. He was an emergency doctor at the emergency room. Q. He was the emergency room doctor. A. Yes. Q. And as far as what they did for you that night, they put you on I mean, they did an electrocardiogram. Is that right? A. Yes. Q. Or an EKG? A. EKG, yes. Q. Okay. Describe for me how they hooked you up and what was actually done. A. What they did, they hooked up several little instruments well, maybe it's not instruments. It's like little sticky little instruments to my body. It was	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Page 53 remember. Q. Okay. I mean, are we talking about, like, before you you took diet drugs or after? A. I don't I don't recall. Q. Okay. On page 13, at the top, you indicated that you had been diagnosed with gallbladder disease; and then looking down there lower in the page, it looks like what you're referring to is the bladder problem that you've explained earlier? Is that right? A. Yeah. That was the closest diagnostic that you guys had on the paper, so that's why I put bladder. Q. Okay. A. And then I put, in K, bladder. Q. Right. Right. I got you. All right. And then you also checked that you had been diagnosed with rheumatoid arthritis. Now, are you talking about the hand? A. Yes. The left hand. Yes. Q. Looking over on page 16. A. 16? Okay. Q. All right. You checked I'm looking at Q in the middle of the page. A. Uh-huh. Q. You checked that you have had an echocardiogram.
